

ZUZANA ČIČOVÁ

ABOUT ME

I am a 26 years old graphic designer, coming from Čadca, Slovakia. Since I was a little girl, I started attending the local elementary art school. I decided to continue my art studies on a high school and college, with a focus on graphic design. I can handle computer graphics and traditional graphic print techniques. Each project I am making, I am trying to make unique and original. Since the high school, I have been trying to gain experience in graphic design during external collaborations, like collaborations within the school, between studios, where we were creating interesting projects. Outside of graphic design, I have a lot of fun with our dog Bella, organize the popular floorball tournament Devils Cup and participate in the running of the floorball league in Čadca. I like to cook and even more I like to bake. I accept challenges, not only in the kitchen of graphic design.
